

Could you please tell us now in your own words, how you have found Care for Me as a Homecare Company? How was the carer who looked after you/ your loved one? Was the contact with the Office / Manager a nice experience? And would you recommend Care for Me to other people who you may or may not know?

I have found the care provided by Carefor Me as excellent. Since the carers have started helping my mother I have noticed a big improvement on her overall health. I know this is due to her getting her medication daily and getting a regular breakfast made for her.

I find the carers kind and friendly both Gertrude and Whizzi I found them very helpful.

The office have contacted me regularly to see if I am happy with the care given or if there is any change in staff on a particular day. Both Nigel, Alisha and Mark are very helpful on the phone.

I would recommend Care for Me to other people who are looking for that little extra help for a loved one.

Both of my parents had chronic debilitating diseases but really wanted to stay at home together for their final 2 years. Care for Me made this possible. My father and mother had extensive medical needs and Care for Me staff were considerate and compassionate, respecting their dignity at all times.

If there were ever any issues that arose, that were always inevitable in these situations, the office and management team were there to listen and take decisive action until we always found a solution. This line of open communication was key.

I would like to thank Care for Me for their help over the last couple of difficult years, in particular Mark, Linda and Delish at the office and of course Ephacy who was with my father in his final few months.

I would have no hesitation in recommending Care for Me to anyone seeking home help.
