Care for me are a totally professional and top class company. Their service, from the office / admin staff to their team of carers is absolutely fantastic. My family and I could not ask for any more with the care and attention my mother has received from each of the care staff who visited her. Also very important for us was the flexibility of the team. They were there when we needed the extra care. Thankfully for my mothers sake, we have been able to pull back on her care needs as she has recovered well but will have no hesitation in contacting Care for me should we need them in the future. I know Mam will miss the girls "dropping in" and we wish you all much success in the future.
